

NOBILI LIRA UNO

Designed by Piet Billekens for Nobili Rubinetterie, the Lira Uno mixer has a soft shape with accentuated corners and a rectangular spout.

Lira Uno is available in the classic version (h.18.7 cm) or a 28.7 cm tall version, with four finishes: Chrome, Polar white (matte white), Velvet black (matte black) and Diamond smoke (dark chrome).

The Nobili Widd®28 immersion cartridge and an effective flow limiter save on water consumption. The mixer lever has a mechanism that blocks it when halfway open. Once this slight resistance has been overcome, the mixer is free to output all the available flow.

The Lira Uno bathroom collection includes: washbasin mixer; bidet mixer, wall-mounted mixer with extensible spout from 17 to 22 cm; shower and bathtub assembly, hand shower and showerheads.
